Dr. Robert S. Cooper
Director, Defense Advanced Research
Projects Agency
1400 Wilson Boulevard
Arlington, Virginia 22209-2308

Dear Dr. Cooper:

I wish to express our appreciation to you for addressing our first Seminar on World-Wide Science and Technology Forecasting. Your highly informative presentation on DARPA's R&D programs in advanced technologies was an "eye-opener" for most of the participants, especially the scope and complexity of the research programs. The students found your comments helpful in setting the tone for the Seminar's subsequent deliberations.

Once again I want to thank you for helping make our seminar a success. I look forward to seeing analysts producing more and better S&T forecasts after being exposed to the many technologies being investigated by DARPA.

Sincerely,

Director
of
Training and Education
